**18. Prevailing Wage**

The Contractor shall be issued the prevailing wage schedule and shall pay the prevailing wage and fringe benefits in accordance with Michigan Act No. 166, Public Acts of 1965, as amended 1979 for contracts performed on State projects. These rates expire ninety (90) days from date issued. The purpose of establishing prevailing rates is to provide rates of pay for workers on construction projects for which the state or a Public School Academy is the contracting agent and which is financed or financially supported by the state. By law, prevailing rates are compiled from the rates contained in collectively bargained agreements, which cover the locations of the state project. The attached prevailing rates provide an hourly rate which INCLUDES wage and fringe benefit totals for designated construction mechanic classifications. The overtime rates also include wage and fringe benefit totals. Please pay special attention to the overtime and premium

pay requirements. The prevailing rate may be satisfied by payment in cash or payment in cash and credit for fringe benefits paid in cash or on behalf of a worker or fringe benefits provided to a worker.

The department establishes the prevailing rate for each classification of construction mechanic requested by a contracting agent prior to contracts being let out for bid on a state project. **If a contract is not awarded or construction does not start within 90 days of the date of the issuance of rates, a redetermination of rates must be requested by the contracting agent.** Rates for classifications needed but not provided on the Prevailing Rate Schedule, including rates for registered apprentices, should be obtained prior to the project award date. Contracting agents are provided Prevailing Rate Schedules for projects at no charge for copying and distribution to bidders and contractors that work on the project.

The Prevailing Wage Law requires that every contractor and subcontractor post a copy of the prevailing rates prescribed in the contract at the construction site. An accurate record showing the name, occupation, and the wages and benefits paid to each construction mechanic must be kept by the employer, and made available to the department for inspection, upon request. If the Department of Consumer and Industry Services determines that the Contractor is in violation of the Prevailing Wage Act, that will constitute a material breach of contract.

## 19. Safety

Under the “General Conditions of the Contract for Construction” of the contract to be awarded, the Contractor;

- a) shall be solely responsible for and have control over construction means, methods, techniques, sequences and procedures;
- b) shall be responsible for initiating, maintaining, and supervising all safety precautions and programs in connection with the performance of the contract;
- c) shall take reasonable precautions for safety of all persons who may be affected, including employees of the Contractor and Subcontractor; and
